Summary of CV

This section describes briefly a summary of your career in science, academic and research; the main scientific and technological achievements and goals in your line of research in the medium -and long- term. It also includes other important aspects or peculiarities.

Maria Kapanadze is the Vice-President of the European Network of Occupational Therapy in Higher Education (ENOTHE) from 2019. She holds research professor position at the University School of Nursing and Occupational Therapy of Terrassa (EUIT/UAB). She is a PhD in Psychology by the University of Girona (Spain) with an international mention (University of British Columbia), Excellent Cum Laude. Also, she is BSc/MSc in Psychology, BSc in Occupational Therapy, and MSc in Inclusive Education. She graduated as the second generation of occupational therapists of Georgia in 2007 from Ilia State University's (ILIAUNI) European Project, developed in collaboration with the European Network of Occupational Therapy in Higher Education (ENOTHE). This education permitted her to contribute to the project development and establishment of OT role in Georgia in spheres of palliative care, working with children with homelessness experiences, job insertion of people with learning disabilities, and inclusive vocational education. Her professional experience in Spain includes project development in social settings with vulnerable populations (career counselling and job insertion projects with immigrants, refugees, and people in recovery from substance use disorders; group and individual therapy, working with trauma, recovery-oriented peer-to-peer projects). Her professional career combines research, teaching and intervention related to occupational science and psychology. Her research focuses on ethical aspects of an occupation, moral identity, social determinants of health, prevention of long-term unemployment, employability and recovery-oriented practices. She presented her works at different scientific international forums in UK (Oxford, Edinburg, York), Ireland (Galway, Cork), Turkey (Ankara), Georgia (Tbilisi), France (Alénia), Portugal (Lisbon), Spain (Terrassa, Barcelona, Vic, Granada, Sitges), Belgium (Gent, Bruges), Russia (Rostov-on-Don), Canada (Vancouver, Winnipeg).

General quality indicators of scientific research

This section describes briefly the main quality indicators of scientific production (periods of research activity, experience in supervising doctoral theses, total citations, articles in journals of the first quartile, H index...). It also includes other important aspects or peculiarities.

The research, academic and professional profile in the fields of psychology and occupational therapy allow me to set the following main objectives/goals for further career development:

1. Development of research projects related to health sciences, moral psychology, occupational science, ethical aspects related to employment, social determinants of health and social justice, employability and population at risk of social exclusion. The competencies related to methodological aspects are reflected in the application of mixed research: qualitative approaches (phenomenology), quantitative and quasi-experimental.

My primer motivation for professional growth is connected to scientific production and acquiring experience in the management of research teams.

The field of moral psychology and occupational science opens up a wide range of potential lines of research that could contribute to the psychological and occupational health of individuals and/or groups on a national and international scale.

2. Contribution to the development of European policies. My role as a Vice-President of European Network of Occupational Therapy in Higher Education permits me to contribute to the European and international health care policies.

3. Commitment to innovative teaching, incorporating service-learning and internationalisation projects. I believe that the application of different educational methodologies, such as problem-based learning, project-centred education, experiential/situated learning and creativity, are effective tools that accompany the teaching tasks. These projects allow the reality of the university to be adjusted to the demands of the changing social environment. However, in professions such as psychology and occupational therapy, it is essential to transmit a passion and enthusiasm for evidence-based practice. This section's particular interest and professional objectives are connected with acquiring competencies for curricular development at BSc, MSc, PhD, and postgraduate levels.

4. Development of intervention projects in the social field. Experience in psychotherapy and individual and group occupational therapy allows me to study in-depth interventions and project design in mental health, drug addiction, palliative care and people at risk of social exclusion.

The transversal skills to be highlighted are collaboration in interdisciplinary and work teams, networking, creativity, entrepreneurship and commitment to internationalisation.

Maria Kapanadze Maria Kapanadze

Current professional situation

Employing entity: Escuela Universitaria de Enfermería y Terapia Ocupacional de Terrassa

Type of entity: University

Department: Occupational Therapy Degree

Professional category: Research professor

Start date: 13/09/2018

Type of contract: Permanent employment contract

Dedication regime: Full time

Performed tasks: Coordination of the subjects, coordination of the 4th course (2013-2020). Subjects (since 2012): Processes of Teaching and Learning (Theory of Education); General and Health Psychology; Analysis of Occupational Performance; Workshop "Creativity"; Advanced Intervention in Adults and Old Adults: Advanced Intervention in Social Field; Fieldwork II: Mental Health; Final Bachelor's Thesis Tutorship; see related projects. Research projects. Participation in the continuous education courses of EUIT and international courses as Interdisciplinary Programme on Palliative and End-of-life Care, Ghent, Belgium, COEHRE, ENOTHE Student Summer Course. Vice-President European Network of Occupational Therapy for Higher Education (ENOTHE).

University degree: Occupational Therapy
Start date: 2013
Entity: Universitat Autònoma de Barcelona **Type of entity:** University
Faculty, institute or centre: Escola Universitària d'Infermeria i Teràpia Ocupacional de Terrassa
- 16 Name of the course:** Final Bachelor's Thesis tutorship
University degree: Occupational Therapy
Start date: 2013
Entity: Universitat Autònoma de Barcelona **Type of entity:** University
Faculty, institute or centre: Escola Universitària d'Infermeria i Teràpia Ocupacional de Terrassa
- 17 Name of the course:** Processes of Teaching and Learning
University degree: Occupational Therapy
Start date: 2013
Entity: Universitat Autònoma de Barcelona **Type of entity:** University
Faculty, institute or centre: Escola Universitària d'Infermeria i Teràpia Ocupacional de Terrassa

Experience supervising doctoral thesis and/or final year projects

- 1 Project title:** Traveller and Roma Children's Play in the School Yard A critical exploration of play in European primary schools and of outdoor play supports applying a capabilities lens
Entity: Luleå University of Technology, International **Type of entity:** University
Doctorate Programme in Occupational Therapy, P4Play
Student: Michelle Bergin
Date of reading: 2023
- 2 Project title:** Aplicación de la acupuntura en el paciente postquirúrgico desde la mirada Enfermera.
Entity: Universitat Autònoma de Barcelona **Type of entity:** University
Student: Andy Corral Lamelas
Date of reading: 15/06/2022
- 3 Project title:** Aplicación de la acupuntura en el paciente postquirúrgico desde la mirada Enfermera
Entity: Universitat Autònoma de Barcelona **Type of entity:** University
Student: Javier Aguirre Navajas
Date of reading: 15/06/2022
- 4 Project title:** Identificació dels factors causals de l'ansietat preoperatòria relacionats amb l'entorn i el procés quirúrgic.
Entity: Universitat Autònoma de Barcelona **Type of entity:** University
Student: Cristina Vallés Carvajal
Date of reading: 14/06/2022
- 5 Project title:** People first? Occupational justice perspectives in a Housing First program in Catalonia
Entity: Universitat Autònoma de Barcelona **Type of entity:** University
Student: Oscar Cano Ruiz
Date of reading: 2021

Participation in innovative teaching projects

- 1 Project title:** International student project OTPower: Breaking the barriers.
Type of participation: Supervision
Time of working relationship: For a limited time
Funding entity: European Network of Occupational Therapy in Higher Education (ENOTHE)
Start-End date: 2016 - 2018 **Duration:** 2 years
- 2 Project title:** PROJECTE D'APRENTATGE SERVEI, intercanvi coneixement estudiants TFG EUIT i estudiants del Master de University of Manitoba
Type of participation: coordinator
Time of working relationship: For an undetermined time
Funding entity: Fundació per a la Docència Sant Llàtzer
Start date: 2018
- 3 Project title:** PROJECTE D'APRENTATGE SERVEI TALLER JERONI DE MORAGAS
Type of participation: Coordinator
Time of working relationship: For an undetermined time
Funding entity: Fundació per a la Docència Sant Llàtzer
Start date: 2016
